

# SQL文

```
select * from profiles where age =24
```

## 実行結果

The screenshot shows a Windows desktop with an orange background. On the left side, there are several desktop icons: a folder named 'このPC', a folder named 'xampp-control...', a folder named 'Atom', a folder named 'Google Chrome', a folder named 'NetBeans IDE 8.2', a folder named 'VMware Workstation ...', a folder named 'WinSCP', and a folder named 'CygwinCH Terminal'. In the center of the desktop, there is a terminal window titled 'XAMPP for Windows - mysql -u ksinst -p'. The terminal displays the following text:

```
MariaDB [challenge_db]> select * from profiles where age =24;
```

profilesID	name	tel	age	birthday
3	鈴木実	080-5566-7788	24	2000-12-24
5	高橋清	090-9900-1234	24	2000-12-24

```
2 rows in set (0.04 sec)
```

Below the table, the terminal shows the prompt:

```
MariaDB [challenge_db]>
```

The taskbar at the bottom of the screen shows the Windows Start button, several application icons, and the system clock in the bottom right corner, which displays '11:27' and '2018/07/20'.
